# Know your care options

*How do you decide when a health-related issue is an emergency? Understanding your healthcare options can save your life... and your money.*

## **1** Visit your Primary Care Physician when you're sick or have a minor injury

Your doctor knows your health history and underlying conditions. For routine illnesses and less significant injuries, many doctors' offices are open on weekends and some evenings. This can be a good alternative to more costly urgent care or emergency care centers. Although a Primary Care Physician is not required, we encourage you to establish a relationship with a doctor.

### Or opt for Virtual Care – or our Nurse Advice Line

See page 4 for information on Virtual Care. Nurses are available to our members 24 hours a day, 365 days a year. Our nurses provide information about taking care of yourself at home or they can help you decide if an appointment, an urgent care visit, or an emergency room visit is best for your symptoms. To locate your appropriate Nurse Advice Line phone number, please look on the back of your member card or log in to the Member Portal.

## **2** If your doctor's office is closed, consider an Urgent Care center

Urgent Care centers typically have extended and weekend hours. Although costs are higher than primary care, urgent care copays are lower than those for emergency care.

# 3 Emergency Rooms

are best for treating severe and life-threatening conditions and they're always open.

The wider range of services offered through emergency rooms, and the hospitals they are connected to, makes emergency care a more expensive option, but sometimes the best option for you.

*It's important to understand your options, and to use your best judgment when deciding which option is right for you.*

## **Remember: Out-of-network emergency care costs more**

Scott & White Care Plans pays out-of-network emergency services according to Usual and Customary rates (industry standard), and members can be balance-billed for expenses beyond what insurance will pay. Your coverage documents contain additional information about emergency treatment and definitions of the terms, including a definition of emergency care. The coverage documents also contain information related to state-mandated consumer protections for facility-based provider charges.

**To save on out-of-pocket costs, visit in-network** emergency care facilities when possible. You can find in-network emergency care facilities by using the provider search tool at [fehb.swhp.org](http://fehb.swhp.org).

If you need to speak to us, contact us in the way that works for you. In addition to the Member Portal, customer support is available by phone at **844.633.5325**.

## You don't have to give up your favorite foods to lose weight and feel your best.

Ever wonder how some people can eat all their favorite foods and not gain weight? Naturally Slim is an online program that will teach you how. And here's a hint: it doesn't include starving, counting calories or spending hours prepping 'approved' foods. SWCP is giving you the chance to learn how to eat the foods you love while reducing your risk of developing serious conditions, like diabetes or heart disease.

Naturally Slim is available at NO COST to you and is accessible via computer and mobile device so you can participate whenever it's convenient, wherever you are.

# Stay better, longer

## Complex Case Management

If you have chronic conditions or complex care needs, our nurse case managers will work with you, your family, and your physician to create and manage your care plan. Case managers advocate for you and can help you navigate the healthcare system and arrange the services you need. They can also answer questions and help you understand your condition and care plan. If Disease Management is right for you, they'll incorporate the program into your care. There is no additional cost to you for this voluntary program. It's all part of our goal to help you get the best possible results and the greatest value from your health plan.

## Disease Management

Disease Management empowers you to manage your chronic condition and help prevent complications. We work with your healthcare providers to identify chronic conditions quickly and treat them effectively. We can also identify self-care activities that help you manage your condition at home. Together, we'll work to slow down the progression of your disease and help you **stay better, longer**.

## Accountable Care Organization

As a member of a health plan working with an Accountable Care Organization, you can expect care that is:

**HIGH-QUALITY.** You should expect the care you receive to be safe, timely, effective, efficient, equitable and patient-centered.

**COORDINATED.** Your doctor guides your care team and coordinates appropriate services across all sites of care that might include a specialist's office, the hospital, or laboratory and imaging services.

**CONVENIENT.** Many of our doctors and facilities offer same-day appointments, extended hours, and onsite laboratory and imaging services. Urgent care centers and retail care clinics like Walgreen's and CVS are in the BSW Preferred network.

**COMPREHENSIVE.** The BSW Preferred network of primary and specialty care doctors and facilities is broad. We are confident we can meet your care needs.

**COST-EFFECTIVE.** Copays and out-of-pocket expenses are kept in check when your care needs are delivered inside the BSW Preferred network (doctors, hospitals, laboratory, imaging and post-acute care.) All other providers are considered out-of-network and no benefits are available for services other than emergency situations.
